

Please include my most strongest objections in the public record for how it is that Sinclair Broadcasting's intends to force their station's airing of an anti-Kerry documentary, days before a presidential election. Those of us who feared the administarions support of big media consolidations and voiced these concerns to you, now feel betrayed that this is happening.

How we allow the uses of the public airwaves free of charge for one corporation attempt to undermine or to support one candidate over the other? These large media conglomerates control most of the airwaves and are concerned more for the bottom line than what we need for our free society. Ask your self if it's not enough that the campaigns are spewing their own onsided views and must we also allow the big companies to shut out real people and those issues that matter to us?

Sinclair's actions show why we need to strengthen media ownership rules, not weaken them! They show why the license renewal process needs to involve more than a returned postcard. Thank you very much.
